Grading Script - HW5

1. At the start of the video you need to show the Window Product ID along with the emulator. If using MAC, show the serial number of the MAC.

2. TESTING AUTOCOMPLETE
- Query 1: **disclaimer**
  - Enter each character, one at a time, and for each show the suggestions that are produced
- Query 2: **new york**
  - Enter each character for the first and second words, one at a time, and for each show the suggestions that are produced.

3. TESTING SPELL CORRECTION
For each of the six queries below, enter them in your search engine and show how the spelling error is corrected. Then click on the corrected spelling to show the results. **(6 x 1 = 6 marks)**

Query	
socer	
billionaere	
magazne	
relocat	
ackowledge	
economcs	

Note: There is NO need of showing the Solr UI in your submission video. The sample video contains that part only for your understanding.
